#### Welcome to the Attendee Resource Center!

Bookmark this page as it will be an excellent resource for you between now and .conf22. This is the place to come to book your hotel, check your registration details, and find additional information about .conf22 in addition to the confsplunk.com website.

#### BOSS of the SOC

Join Splunk for our Boss of the Security Operations Center (BOTS)
Capture The Flag (CTF) competition, taking place onsite in Las Vegas or at home on June 13th 6PM (Pacific Time).

BOTS is a real world, jeopardy style, blue-team focussed CTF event that has seen over 15,000 competitors over the past 6 years. Competitors will be presented with real world scenarios, in which you will be required to play the role of Alice Bluebird, a security analyst trying to protect her organization, Frothly, You will race the clock (and other analysts), hunt adversaries in Splunk Enterprise and Splunk security products, and try out new data sources along with fan favorites like Windows event data and network data. All while trying to earn eternal bragging rights to the world and your peers, or maybe just enjoy the journey and fun along the way. Be sure to register on the BOSS Platform or by using this link.

\*To participacte in BOSS onsite Las Vegas you must be registered for .conf22 Las Vegas. All BOSS participants will be able to compete virtually.

#### BOSS of Operations and Observability

Join us for our newest version of Boss of Operations and Observability (BOO) competition taking place onsite in Las Vegas or at home on **June 13th 6PM (Pacific Time)**.

BOO is a capture-the-flag-esque game, with a focus on Splunk's IT and Observability solutions. BOO provides a fun and realistic approach to using Splunk. In its sixth consecutive year, BOO will provide gamers with real-world, real-time incidents where they assume the role of Ace, Splunk T-Shirt Co's ultimate guru in all things Observability. As Ace, gamers will investigate outages, monitor their cloud environment, triage incidents using event analytics, and maybe even predict an outage before it happens. Get ready to race the clock (and your peers) and earn your team bragging rights to the world or maybe, just enjoy the journey, learn something new and have fun along the way.

This year, we will have one hybrid competition so you can join us in Vegas or from the comfort of your own remote location. Be sure to register on the BOSS Platform or by using this link.

\*To participacte in BOSS onsite Las Vegas you must be registered for .conf22 Las Vegas. All BOSS participants will be able to compete virtually.

# Thank you for Registering!

.conf22 Las Vegas June 13-16 .conf22 Virtual June 14-15

Splunk University June 11-13

Dear Douglas Bernardini,

Thank you for registering for .conf22, starting with Splunk University from June 11-13, 2022 and .conf22 kicking off June 13, 2022.

Splunk has secured a room block at the MGM Grand Las Vegas Hotel, the official event hotel of Splunk University and .conf22. <u>Book your hotel reservation</u> early as space is limited. The official .conf22 conference rate will expire on Friday, May 13 at 11:59pm PST.

Upon hotel check-in, you will need to present a credit card. A cash or credit card deposit of one night's room and tax is required upon check-in for incidentals and the balance of room and tax for the remainder of your stay.

Log into the Attendee Resource Center to view your registration at any time.

Please save this email for future reference.

Welcome to BOTS

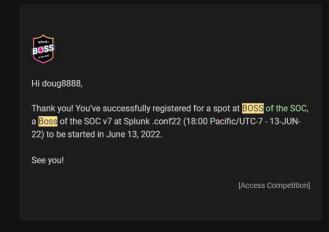

Boss of the SOC (BOTS) is a blue-team capture the flag-esque competition. As a contestant, you will explore and investigate realistic event data in Splunk Enterprise and Splunk Enterprise Security. During the competition, you'll practice your security skills and compete against peers for prizes and bragging rights. Players will be given a series of questions of varying type and difficulty and points are awarded for both accuracy and speed. Competitors will gain a stronger and more realistic understanding of their strengths regarding incident investigations. In addition, the results will highlight areas for training and education. This is Boss of the SOC version 7!
